

QuickTask Mopping System

Cleanroom Flat Mops and Hardware

The QuickTask product line consists of a variety of knitted polyester, polyester/cellulose, microfibre/foam, and microfibre flat mop heads that are easily installed onto a hinged mop head frame and handle assembly.

Each mop head has been specifically chosen to be compatible with a wide range of chemicals and disinfectants including quats and hypochlorite solutions. QuickTask mop head frames are available in stainless steel or durable autoclavable plastic.

Knitted polyester mop heads

This sorbent multi-layer 100% knitted polyester is optimized for use on smooth surfaces.

- Cleanroom laundered ensures a low level of particulates
- Sorbent knit structure applies solutions evenly while removing contaminants
- Designed for single use

TASK0200

Looped microfibre mop heads

The most sorbent mop head in the range, the small loop microfibre construction provides exceptional performance in removing liquids, soil, residues and other contaminants from most surfaces.

- Microfibre construction for exceptional sorbency and mop-to-dry performance on wet surfaces
- Cost effective as can be laundered and autoclaved
- Especially effective on polymeric flooring

TASK0300

Knitted looped polyester mop heads

The cleanest and most durable mop head in the range, the medium length loops will conform to almost any shape, making it especially suitable for coving bases and wall/floor joints.

- Laundered and packed in an ISO Class 4 Cleanroom for a very low level of particulates
- Knitted tube microfibre polyester construction provides exceptional sorbency and drying of wet surfaces
- Medium-loop design allows easy contact with irregular surfaces
- Exceptional value as can be repeatedly laundered and autoclaved

TASK0400

Polyester/cellulose blend mop heads

The lightest mop head in the range, it has a polyester/cellulose cover over a polyester fibrefill core.

- Nonwoven fabric construction which is ideal for removal of light soils, residues and biofilms
- Ideal for cost effective single use
- Highly sorbent

TASK0500, TASK0550

Microfibre face and foam core mop heads

The unique microfibre face and foam core construction ensures excellent floor contact, sorbency and superior surface cleaning.

- Ribbed microfibre face allows for exceptional cleaning, solution application, and mop-to-dry performance
- Durable and economical
- Cleanroom processed so suitable for critical environments mop-to-dry performance.
- Durable and economical.
- Cleanroom processed; suitable for critical environments.

QUICKTASK mop frames & handles

Choice of flat mop head frame and handles for ease of use in all sizes of facilities.

QuickTask flat hinged mop head frames

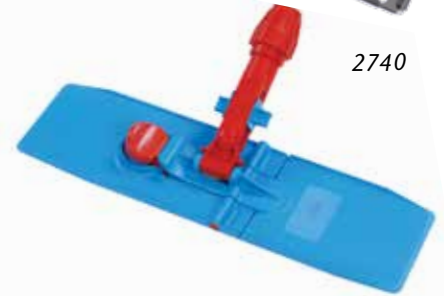

- Lightweight stainless steel or durable autoclavable polypropylene construction reduces operator fatigue and encourages compliance
- Hinged design allows quick and easy replacement of QuickTask mop heads
- Mop head frames are specifically designed to give good even coverage with no uneven pressure points
- Autoclavable at 121°C for 30 minutes

QuickConnect™ Mop Handles

- Choice of durable electropolished stainless steel, lightweight anodized aluminium or fibreglass
- Fixed length or telescopic options for higher walls and ceilings are available.
- Interchangeable with all QuickTask mop head frames. Also compatible with all other Contec QuickConnect mop head frames.
- Autoclavable at 121°C for 30 minutes
